### **£8.99 / 90p ptn**

## **PLANNING FOR THE OLYMPICS**

This summer will be a very special one for London, with the Jubilee closely followed by the Olympics and Paralympics. One of the biggest worries for businesses in affected areas is having the right amount of stock in place to cope with demand.

From our depot in the very heart of London we plan a gold medal service for our customers, with evening and over-night deliveries, collection facilities round the clock, and a rapid reaction team based at Kings Cross, ready to help out wherever needed.

If you have any worries at all about service during the games, call us now and we'll work out a plan with you.
